PILES CAPS & BRACKETS

Different types of structures require different types of pile caps and brackets. Techno Metal Post manufactures a wide variety of pile caps for multiple construction needs. We offer pile caps which support wooden, steel, or concrete structures.

Techno Metal Post has also developed new construction pile caps with integrated rebar for helical piles supporting concrete foundations in deep load bearing soil.

Techno Metal Post manufactures a line of foundation repair brackets for underpinning projects. We also offer custom brackets upon request, for special types of connections.
